SA 2019 ANALYSIS

| | |
|---------|----------|
| ABV | 12,5 % |
| pH | 3,25 |
| Acidity | 7,6 gr/l |

2019 HARVEST

The 2019 vintage was characterized by a warm and dry winter, and a spring and summer with not very high temperatures. Rainfall was present most of the year, but not excessively. Adverse spring weather conditions made bunches smaller than expected.

The 2019 agronomic year presented an average rainfall of 850 mm, a drier year than 2018 but not as much as 2017. The dry weather and the absence of rain during the ripening period meant that the grapes were harvested at an optimal maturation moment and in perfect sanitary conditions with a very balanced ripening.

WINEMAKING

Harvest by hand and selection in the vineyard of the best bunches from the La Fraga plot. Two thirds of the grapes are destemmed and subject to low- temperature maceration and one third is pressed in whole bunches. 90% is vinified in first and second year French oak vats, and 10% vinified in cocciopesto amphorae. Subsequently, the wine rests 6 months on the lees, with manual batonnage, and one year in the bottle before being released.

OUR FIRST IMPRESSIONS

Sanamaro Sobre Lías 2019 is an exclusive wine from our best plot "La Fraga". A wine of great personality and elegance. On the nose, the varietal aromas of Albariño and Loureiro are expressed with frankness, intensity and clarity. We can also appreciate the more complex notes of fermentation, lees ageing and minerality. In the mouth it is an extraordinarily ample, fruity and silky wine, with hints of dried fruits and white flowers.
